Nuit Blanche is a free annual event dedicated to contemporary creation in all its forms, created in 2002 by the City of Paris. Each edition is curated by a personality from the world of art and creation who invites French and international artists of his/her choice, as part of a Carte Blanche.

At the same time, the City of Paris launches an annual open call for artists. Any artist or group of artists can present a project and be included in the event. Those projects are completing the program put together by the Artistic Director.

Who can apply for the Associated Programmation?

Any artist or group of artists working in Visual Arts (painting, sculpture, installation, video, projection...) or Performing Arts (dance, music, theater...) living in France or abroad.

Terms

The projects must imperatively be **financially** and **technically** autonomous.

Counterparts

Your project will be included in the Nuit Blanche program and will be promoted in the communication materials produced by the City of Paris.

The Nuit Blanche team will ensure a follow up on your project (by advising you, by helping you find a venue, by connecting you with the City of Paris services...).
